

# Quality Policy

**In order to ensure product quality, services and satisfaction of expected customer's requirements, there is the management mission and responsibility of all company employees.**

**The system of company integrated management control is focused on prevention, flexibility and effective control through analyse of relevant information with target on profit achievement.**

**Into the process of continual product quality improvement we involve customers and suppliers by creating mutually new business relations based on bilateral advantage.**

**Human resources, their dynamic and team work are the main motive power of the company.**
