

Enics Västerås

Enics is one of the world's largest EMS companies providing whole life-cycle services to global industrial business.

Transforming your idea to future success!

Our Engineering and Design services have a broad service range. We produce close to 10.000 prototypes annually, often with full NPI solutions. By combining component selection, design for production and test we provide cost effective solutions. We have a clear focus to shorten your Time-To-Market in the whole value chain from PCB design to manufacturing. The Single Point of Contact concept gives you both close proximity and global opportunities. We are dedicated to build long term partnerships.

Benefits for the Customer

- Västerås is an Engineering Competence Centre, supporting all your engineering needs from Design, Fast Prototyping, Test Design and Industrialization.
- Manufacturing Services for PCBA's and System Assembly within Industrial and Medical Products.
- Simplified Supply Chain and the lowest Total Cost through the Customer Focus Team's work and Single Point of Contact concept.
- Innovative solutions driven by continuous challenging of ourselves, seeking better understanding of the customer business and their needs, concentrating on the whole life cycle of your products and systems.
- Focus and competence driven by 40 years of experience in Electronics.

Västerås in Numbers

Personnel: 250
 Total area: 9000 sqm
 Products: 4000

Customer Relationship

- Customer Focus Teams and Single Point of Contact
- Bridge to Enics' global manufacturing platform including Product and Technology Transfers.

Demand & Supply Chain Management

- Global and local sourcing
- Logistic services incl. Vendor Managed Inventory
- Prototyping & After Sales procurement

Engineering Services

- PCBA layout and simulations, Design support
- New Product Introduction (NPI) and Product Technology Transfers (PTT)
- Fast Prototyping including DFM /DFA reviews
- Test development (ICT, FPT, Burn-In, FCT, HVT), Test strategy review

Manufacturing Services

- System Assembly
- High mix and low & medium volume board assembly
- Testing (ICT, FPT, FCT, AOI, AXI, Burn-In)
- Conformal coating

After Sales Services

- Spare part production
- Maintenance, repairs and upgrades
